KA72 is designed by Göran Malmvall. Karl Andersson & Söner has been producing and refining the KA72 storage system since 1972. Thanks to its versatility and the restrained elegance of its clean, uncluttered lines, KA72 has developed into a contemporary classic that today is found in both private homes and public spaces alike. The cabinets are 400 mm and 800 mm wide and come in heights of 865, 1155, and 2020 mm and depths of 330/350 mm and 440/460 mm. They are made using a blockboard construction and veneered in ash, birch, beech, oak, cherry, flamy "masur" birch, or finished in a choice of eight coloured lacquers. Accessories include magazine racks, drawers, boxes, clothes rails, expansion files, miniature fridges, lighting, locks, top panel and pull-out shelves. The fittings are nickel-plated or made of brass. Cabinets are supplied ready assembled with adjustable screws in the plinth to ensure they stand straight and steady. KA72 is perfect in the living room, conference room, kitchen, library, dining room, coffee corner, office or lobby area and can also be used as a side table, TV bench or display cabinet, etc.
